

NWCA NEWS RELEASE

CUSTOM METAL FABRICATION – SHIP SPARES AND REPLACEMENTS

JANUARY 2024

NorthWest Clean Air Company Inc (NWCA) is excited to announce the offering of a full range of custom metal capabilities in steel, stainless steel and aluminum to meet the needs of our cruise ship customers worldwide.

The state of the art production facility is located in Toronto, Canada and is comprised of 50,000 square feet of manufacturing and warehouse space ensuring large scale capacity and quick access to air and ground transportation.

The highly skilled staff of experienced designers, engineers and craftsmen, supported by the latest SolidWorks 3D CAD/CAM software including Metalix cncKad, assures that all metal components are manufactured to the highest standards.

Product categories are numerous and can include HVAC parts, wash stations, drip trays, inlet and outlet louvres, stainless steel engine room framed intake louvres, sheet metal enclosures, light fixture components and metal fixtures as examples.

You can learn more about our full services for steel fabrication by sending your enquiries to sales@nwca.ca.
